

Cells Study Diagram

(See Google Classroom)

Name

Period

- __1. Label each organelle (part) with its name. **Sharpen your pencil. You need room to write the function of the organelle.**
- __2. Draw additional organelles across from each and connect with one **straight edge line**. **Label and number for a count.**
- __3. Next to the each name, write a short description of the function of the organelle (part).
