

Element Card

1) Average Atomic Mass: From Periodic Table: _____ amu (atomic mass unit): Round to the nearest Whole number: _____	2) Your Name: _____ Period: _____	3) Symbol: Write LARGE. Watch UPPER and lower case. _____ Element Name: _____
4) Structure: p^+ = protons ⁺ _____ (Atomic #) n^0 = neutrons ⁰ _____ (p^+ plus n^0 = amu) e^- = electrons- _____ (e- equals p+) Electron Levels: _____	5) Physical Properties: Density _____ So, in water it _____ Boiling Point (pt): _____ °C Melting/Freezing Pt _____ °C So, at room temperature, it is a _____	6) Atomic Number (At#): Write LARGE. _____
7) Diagram: Wait for directions.	8) Fact: Use: Source:	9) State of Matter: Solid, Liquid or Gas at 20° C (room temp)
