

1. You should be able to put the Photosynthesis Cards in order on your desk to show the Photosynthesis Equation and then the Respiration Equation. Practice.
2. Fold this paper so you can use just one of the signs below with each equation.

**PLANTS**

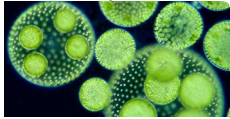

**Autotrophs:** **Plants**

Algae

Cyanobacteria (blue-green bacteria)

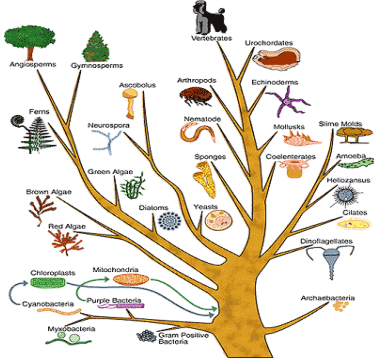

Phytoplankton including Plant-like Protists

←-----Fold here-----→

**Autotrophs & Heterotrophs**

**ANIMALS**

**including Bacteria, Microbes, Fungi & Protists.**

←-----Cut here-----→

3. Use a flap of tape to add each of these to the appropriate card.
